

Message to the Youth

Michiko Hayashi

To my dear friends,

Please remember the force of our consciousness. We are constantly creating our realities with our consciousness. Many people on earth have forgotten it, and now it is the time to RE-MEMBER it.

Be positively strong. Trust and keep believing. Let's unite and choose loving, compassionate, and respectful thoughts, words, and deeds so our beautiful and powerful energy of collective consciousness will make this world a peaceful and harmonious place.

I love you all.
